

Introduction

The uTCA Tester is an automated test suite for testing platform management software implementation of different types of MicroTCA building blocks like, Shelf Manager, Carrier Manager, MCMC, EMMC etc. based of the PICMG Specification MTCA.0 R1.0.

Version 1.0.0.6

Release Date: May 13, 2008

Component Versions

1. **uTCA Tester** : **1.0.0.6**
2. **Miniscope** : **1.2.0.16**

Known Issues

Issue #	Summary
508	Authentication types "MD2" and "MD5" are not supported in the current version.
141	"Abort" is not implemented properly. Current behavior: "Abort" prevents the execution of the remaining selected tests after completion of the current test.
456	User defined batch is not being saved across session. Current behavior: User defined batch can be created but will not be saved if the current instance of the Tester is closed.
490	If the software is installed for "All Users", it is not properly installed for users other than the current user.
